

## To My Daughter's Teacher

Today I put my daughter's hand in yours and hope that you will love this miracle child as I do.

Though soft spoken, she is strong and brave of heart.  
Sometimes hesitant, she can be courageous when required.  
And when she is with others, kindness and generosity are there too, for she is tenderhearted, bright, and giving.

Please take good care of my special daughter, strengthening her gifts, encouraging her talents, and fostering within her a love of learning.

In return, I will be forever grateful that you have invested your time and energy in our midst and made a difference that will last a lifetime.

Sincerely,
