

## To My Son's Teacher

Today I put my son's hand in yours and hope that you will love this miracle child as I do.

Though soft spoken, he is strong and brave of heart.  
Sometimes hesitant, he can be courageous when required.  
And when he is with others, kindness and generosity are there too, for he is tenderhearted, bright, and giving.

Please take good care of my special son, strengthening his gifts, encouraging his talents, and fostering within him a love of learning.

In return, I will be forever grateful that you have invested your time and energy in our midst and made a difference that will last a lifetime.

Sincerely,
